

CITIZENS' CLIMATE LOBBY (CCL)

We're creating the political will for federal climate change legislation that will create jobs, grow GDP, save lives, and reduce greenhouse gas emissions.

The following will help you get acquainted with CCL.

THE BASICS

Our focus: CCL volunteers are working to pass a slowly rising, revenue-neutral, carbon fee and dividend policy, with 100% of the revenues returned to households as dividends and a border tariff to address international competition issues while encouraging our trading partners to also price carbon.

Our methods: We work to achieve this goal by lobbying at the federal level, educating the public, and publishing opinion pieces in the media, all in an effort to create the political will that's necessary for Congress to support our proposal.

Monthly meetings: Our monthly meetings feature guest speakers, Q&A, celebration of members' achievements, practice and presentation of monthly action plans.

Regional conferences are held annually and provide members a chance to learn more, work together on regional strategy, and network.

CCL USA's national conference (usually in June in D.C.) features a keynote speaker, educational workshops, and culminates in meetings with almost every member of Congress or their staff.

LEARN MORE

Visit: citizensclimatelobby.org and explore the **About CCL** and **Carbon Fee & Dividend** pages.

Join CCL: citizensclimatelobby.org/join-ccl. It's free.

Join the introductory call, offered every Wednesday night at 8 p.m. ET/5 p.m. PT. This call includes time for Q&A. See citizensclimatelobby.org/join-weekly-intro-call/.

Find and connect with your local chapter. On the website's **About CCL** page, find the **Chapters** tab where you'll find a list, map and contact information for existing CCL chapters.

BROUGHT TO YOU BY: PALOUSE REGION CHAPTER OF CCL

We serve North Idaho (Congressional District 1) and **Eastern Washington** (Congressional District 5).

We meet alternately in Moscow, ID and Pullman, WA.
