- Watch the monthly national call and guest speaker 3rd Saturday of the month on CCL Community
- Log actions on CCL's Action Tracker: <https://community.citizensclimate.org/actions/home>
- Send photos and info about CCL and our activities to Margaret Davis and Giselle Zuniga

Next meeting is April 18, 5:30-7 at Community Congregational Church, Pullman

COMMUNICATION SKILLS EXERCISE

We'll need all hands on deck to hit our March national goal of 10,000 messages to Congress about the PROVE IT Act.

The PROVE IT Act:

1. Was passed out of the Senate Environment and Public Works Committee in January on a bipartisan vote of 14-5. Phone calls from CCL volunteers helped make this happen. We're hopeful that a House companion bill will be introduced soon.
2. Directs the Department of Energy to create a system for carbon intensity data collection and reporting from U.S. industry and certain other countries for specific manufactured goods.
3. Is not a Carbon Border Adjustment Mechanism (CBAM), but it's necessary because *other* countries already have CBAMs. We need to be clear about our own data so we can negotiate effectively and accurately with trading partners as they set carbon tariffs.
4. Builds on bipartisan momentum to do something about international emissions.
5. Furthers the conversation on carbon pricing.
